**SUBJECT : IMPLEMENTATION OF THE QUALITY LEARNING MASTERPLAN
PILOT TEST FOR BLENDED-DIGITAL LEARNING**

DATE : July 29, 2026

Pursuant to the mandate of the Department of Education to ensure the delivery of quality basic education under **Batas Pambansa Blg. 232** (Education Act of 1982) and **Republic Act No. 9155** (Governance of Basic Education Act of 2001), this Office announces the implementation of the Quality Learning Masterplan Pilot Test. This initiative is established through a Memorandum of Agreement (MOA) between the Department of Education, represented by Secretary Juan Edgardo M. Angara, and Frontlearners, Inc., represented by its President, Leo R. De Velez.

The program is a one (1) school year pilot test designed to explore the integration of interactive digital learning resources aligned with the DepEd curriculum. To ensure inclusive access, these resources support online, offline, and printed formats, catering to schools with diverse connectivity profiles. **In accordance with Section III of the MOA, this pilot program is implemented at no cost or expense to DepEd.**

The primary objectives of the pilot test are to:

- Improve learning outcomes by evaluating technology-enabled instruction;
- Enhance instructional quality through consistent, data-informed digital tools;
- Reduce learning gaps by identifying and addressing student deficiencies in real-time; and
- Assess the integration of digital content and frequent formative assessments into daily teaching practices.

The pilot implementation covers Mathematics, Science, and English for Grades 1 to 10, alongside six (6) new Senior High School (SHS) subjects. While the core focus remains on these areas, teachers may also utilize other available modules in the pilot category, such as Araling Panlipunan and Filipino.

The program utilizes the "**Teacher-Led Mastery Learning with AI-Feedback Tutoring**" pedagogy. This methodology leverages Artificial Intelligence-generated feedback on learner responses during quizzes and mastery tests. The AI provides immediate explanations to help students achieve competency mastery before proceeding to new topics, thereby supporting targeted teacher interventions.
